How We Will Calculate Your Balance: We use a method called the "average daily balance method (including new purchases)."

Loss of Introductory APR: We may end any introductory APR(s) and apply the standard APR for Balance Transfers, if you make a late payment.

Variable Based on Prime: Your APRs will vary with the market based on the Prime Rate. The Prime Rate is the highest bank prime loan rate as published by the Wall Street Journal in its Money Rates Section on the 14th day (or the next business day, if the 14th is not a business day) of the calendar month preceding the first day of the billing period. If the

periodic Rate(s) and corresponding Annual Percentage Rate(s) increase, your interest charges will increase, and your minimum payment may be greater.
